nationally. There are still significant opportunities to expand distribution, with our focus on the Food and Convenience channels.

Add new Yowie confectionary products

The second half of this fiscal year saw the successful US launch of Bites, Wild Water Series launch in both the US and AUS, and the US announcement of our new single serve Gummy + pet surprise (already accepted in our largest customer) to hit shelves in October. We also are presenting innovative items specific to the AUS market to the AUS retailers with FYQ3 expected launches.

Improved financial performance – return to positive revenue growth trajectory in FY20, positive EBITDA and cash flow

Getting back to a revenue growth trajectory will put us on a path to positive EBITDA and cash flow positive. We continue to see improvement in our EBITDA and cash flow despite stiff competition in all markets.

We are seeing store weekly turnover at major customers in both markets beginning slight upward momentum and along with aforementioned additional distribution and trade promotion activity we are confident that we will see topline growth in FY 2020.

EBITDA improvement

FY 2019 EBITDA loss of US\$2.3 million was a 54% improvement compared to US\$5.0 million in the previous year. This was achieved by better fiscal discipline, reduced spending while dealing with the competitive environment. Q4 EBITDA loss was US\$1.2 million compared to the previous year of US\$0.3 million due mainly to a significant planned increase in marketing expenditures to launch Yowie Bites and our Wild Water Series 5. Gross Margins continue to be very healthy at 50% of net sales allowing us to invest with retailers and marketing where appropriate.

Cash Flow

We are showing a considerable improvement in the cash run rate with Q4 (US\$621k) versus (US\$1,510k) the previous year's Q4. This also was an improvement versus Q3 2019 (US\$1,769k) and Q2 2019 (US\$922k). Total cash flow for FY 2019 was (\$3,106k), an improvement of 58% compared to (\$7,410k) compared to the previous year.

Outlook – On track to deliver net sales growth, positive EBITDA and positive cash run rate in FY20

Our plans are in place to get us to deliver net sales growth, positive EBITDA and positive cash run rate during FY2020 based on continuing to deliver on our Key Priorities

- Expanding distribution in both the US and AUS markets. We have commitments from major US grocery and specialty retailers to range Yowie beginning in Q1 FY2020.
- Expanding our product portfolio with innovative surprise inside treats, focusing on our mission of teaching children and parents about conservation and endangered species, will broaden our shelf presence and increase Yowie brand awareness. The launch of Yowie Bites and Gummies is the beginning of that portfolio innovation.
- Investment in the retail trade is critical for us to succeed in the highly competitive confectionary category. We have solid plans in place with major retailers in the US and AUS to showcase our brand with consumers.
